# Introduction to Hygipod

Hygipod is the first and only prefabricated modular unit of its kind - the only pod that has no vertical or horizontal joints. Complete with access panels, basin kit, and encapsulated in Trovex hygienic PVC, Hygipod is simple and easy to install. Not only that, but our prompt delivery ensures your project will run as smoothly as possible.

You won't find a product like this anywhere else. Hygipod is not just for wash stations but can be used with other modules such as toilets, showers and gas / power outlets for Medical Service units. Hygipod is HBN 00-10 compliant and is fully compatible with other Trovex systems. Let Trovex provide the solutions for all your hygienic wall cladding requirements.

## Hygipod applications

- › Doctors' surgeries
- › Hospitals
- › Healthcare
- › Commercial kitchens
- › Food factories
- › Leisure centres
- › Pharmaceutical industry
- › Gyms
- › Canteens
- › Changing areas
- › Cleanrooms
- › Washrooms
- › Care homes
- › Hotels

### Pre-plumbed

Designed as a fully complete unit, the Hygipod is supplied pre plumbed, equipped with all the necessary parts and does not require on site framing, allowing for quick and easy installation.

### Rapid delivery

When schedules are tight, you want a company that can deliver - on time, every time. The range of Hygipods are stocked in our warehouse enabling delivery of your item without delay.

### Simple installation

Hygipod is delivered prefabricated to suit your application and ceiling height and helps eradicate on-site installation inaccuracies. Further to this, Hygipod enables a consolidation of trades so you can complete the project quickly and efficiently.

# The system

Constructed of a rigid core and encapsulated in Trovex hygienic cladding, Hygipod offers the highest standards of cleanliness in one simple unit.

Delivered prefabricated, less time is spent marking-out for sanitary-ware and constructing on-site framing, making commissioning and installation a breeze.

Hygipod is compatible and modular, offering the option to create a unique configuration from individual modules.

## Hygipod features:

- › One-piece, joint-free, rigid casing
- › Two lockable, hinged access panels
- › 750mm(w) x 225mm(d)
- › Pre-plumbed

## Hygipod options:

- › Full colour range
- › Custom access panels

See our [Anti-ligature section on page 73](#)

## Surface finish

The Hygipod one-piece, joint-free casing is a hygienic solution. Hygipod can also be fabricated in any of the Trovex hygienic cladding systems. Imagine Trovex Diamond in Brilliance colours or a colour from the Ambience or Radiance collections: the choice is yours.\*

## Access panel

Rounded corners on the access panel mean that cleaning is easier and more thorough, minimising the presence of bacteria.

## Core types

### NEW Hygiboard

Upgrade your core material to the Hygiboard! Formed entirely from 100% anti-microbial PVC giving ultra-hygienic properties.

### High Grade Ply

Lightweight and durable.

Corner

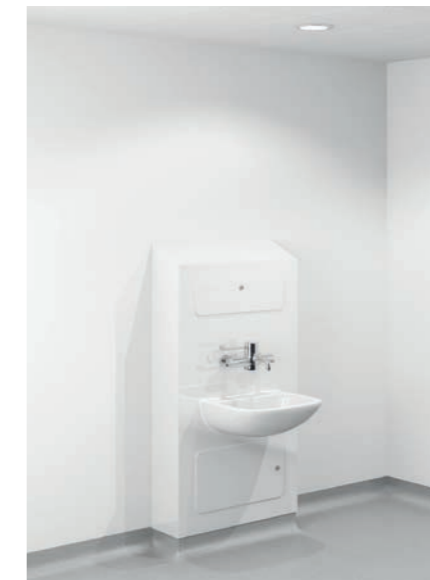

Space-saver

## Heights

Full-height

Half height with sloping top

Through suspended ceiling

\*Lead times may vary dependent on your choice of finish.

# Hygipod options

Every requirement has been considered in the design of the innovative Hygipod system, from a simple wash station to one designed for disabled access.

Designed as a range of modules to be combined in various configurations, the Hygipod system offers flexibility, with a tailored approach for an ideal solution. Each standard unit can be fixed alongside another, or two units can be included separately within a room. For example, a basin and a WC unit could be selected for an en-suite facility. Whatever your needs, you can select a perfect Hygipod combination for the space available, to create the facility you have in mind.

Call **01707 254 170** and speak to a member of the team.

Handwash basin

If space is limited, our most popular wash station, Space Saver Hygipod, is the ideal solution.

The first hygienic wash station for such areas, this space-efficient basin is designed to fit perfectly across the corner of a room, concealing services and pipework. It can be supplied with weld-ready edges to attach seamlessly to the hygienic wall cladding on either side.

Shower

Bed Service Unit - Medical Service Units for out-patient departments also available

Doc M Unit

Sluice Unit - Janitorial Unit also available
