S3:60

The ideal cubicle system for high traffic environments.

Designed to perform in the most demanding environments, Trovex S3:60 offers a stunning appearance, outstanding strength and requires minimal ongoing maintenance. Decades of continuous improvement have led to these characteristics of quality.

Sanitaryware

Speak to a Trovex advisor to request your Sanitaryware Guide, showing a comprehensive range of sanitaryware to complement the Trovex S3:60 cubicle system.

S3:60 features

Trovex S3:60 displays outstanding durability, delivers long serviceability and presents a pleasing appearance.

- › Polished anodised aluminium hardware for strength
- › Adjustable pedestal for accurate installation
- › Anti-finger-trap hinges for safety
- › Secure clip-panel system for easy maintenance
- › Bullnosed headrail for a sleek appearance
- › Pre-drilled components for faster installation
- › Co-ordinating duct panelling and vanity units (see page ??)
- › Wide choice of colour schemes available (see page 57)

S3:60 components

Trovex S3:60 includes every element for your washroom. Vanity units are complemented by lighting pelmets, and duct panelling conceals pipework and provides easy access for maintenance.

- › Assisted site measure is available for your peace of mind

- › Single-source supplier for sanitaryware, accessories, benching and lockers

- › Dimensions to suit your project

See page 57 or speak to an advisor today to discuss your choice of colour scheme **01707 254 170**

S3:60 specifications

Cubicles

S3:60 WC cubicle
1960mm overall height a/FFL including 150mm floor clearance.
1600mm maximum recommended depth of cubicle including duct.

Core material
SGL 12mm thick solid-grade laminate, colours from Trovex standard range of colours.

Edge material
SGL Radiused and polished.

Headrail
Polished anodised aluminium extrusion, bullnosed profile, end caps where applicable.

Pedestal
Polished anodised aluminium casting with bolt through fixing to panel and adjustment to accommodate uneven floors.

Ironmongery
Polished anodised aluminium anti-finger trap, rise and fall hinge, DDA compliant indicator bolt with emergency-release facility, coat hook and anti-tamper toilet roll holder.

Accessories
Coat hooks and toilet roll holders, and other sanitaryware items as per the Trovex Product Guide.

Duct panelling

S3:60 WC duct panelling
Panels built to suit site dimensions hung on concealed clips which locate in groove on flashgap panels, screw-fixed to 44mm x 44mm PSE softwood frame (supplied by others). Panels commence 100mm a/FFL to allow for skirting detail (by others), with three height options: full-height, cubicle-height or low-level.

Core material
SGL 12mm thick solid-grade laminate, colours from Trovex standard range of colours.

Edge material
SGL Radiused and polished.

Accessories
All clips and fixings supplied with panels.

Our dedicated customer service team is available for advice and guidance on how System S3:60 can make your perfect washroom environment.

Vanity units / Vanity units

S3:60 vanity unit
Vanity unit for vanity basins with top at 800mm a/FFL to horizontal surface, complete with laminated softwood frame and ply plinth and front access panels mounted to frame.
